SUMMARY

Flutter Developer with 4 months of practical experience across 3 internships. Specialized in front-end development in 2 projects, and managed backend with Firebase in 1 project. Skilled in creating smooth, responsive, and user-friendly mobile apps with clean UI and efficient functionality. Currently expanding expertise in Agentic AI through SMIT, aiming to integrate AI-driven solutions into practical app development.

WORK EXPERIENCE

Flutter Developer Intern – Developer Hub Corporation (Remote)
July 2025 – September 2025

- Designed and developed the UI for the Social Connect app, emphasizing modern, responsive, and user-friendly interfaces.

- Enhanced overall app design, ensuring a smooth and engaging user experience.

Flutter Developer Intern – Nexus AI (Remote)
October 2025 – November 2025

- Developed a new tech app and seamlessly integrated APIs for robust functionality.

- Implemented efficient front-end features and optimized app performance.

Flutter Developer Intern – Developer Hub Corporation (Remote)
November 2025 – December 2025

- Built a Todo app with full functionality and a polished, intuitive UI.

- Focused on clean design, smooth interactions, and responsive layouts to enhance usability.

EDUCATION & CERTFICATIONS

Bachelor of Science in Information Technology (BS IT)
   University of Agriculture, Faisalabad – Expected 2028

Agentic AI Program
   Saylani Mass IT Training – *Expected 2026*

Certifications
